

PHOTON SOLAR – 5.2 KWp – On-Grid PV Package
3-phasis system - with poly crystalline 260Wp PV panels – Made in EU

We hereby offer a high-quality 5.2 KWp photovoltaic complete package (self-assembly kit) to you. With this PV package you can produce your own electricity, which you can consume yourself. The power surplus that you cannot consume, will be feed-in to the public power grid and will be compensated in accordance to the feed-in scheme of your local country law.

The PV package includes high-quality photovoltaic components with German guarantee consisting of efficient, poly crystalline PV panels, high-efficiency inverters and standard roof top sub-structure with mounting material such as PV wire and connectors.

260W+ poly crystalline PV Solar panels type PHOTON SOLAR SCP-260
30 years performance guarantee from German manufacturer
TÜV: IEC61215, IEC61730 certified – panel size: 1640 x 992 x 40 mm

5 KW PV Inverter (three phase, transformer less, 5 years manufacturer guarantee), Sub-structure from German manufacturer (15 years guarantee, DEKRA proven, stainless steel and anodized light aluminum) and special PV wire and PV connectors.

Product description	Units
PHOTON SOLAR SCM-260 260W+ poly crystalline PV panel – Made in EU 30 years performance guarantee, German manufacturer <i>According to data sheet and warranty terms</i>	20
5 KW (3ph) On-Grid PV inverter VDE, AR4105, transformer-less Inverter (3 phase) 5 years guarantee <i>According to data sheet</i>	1
Mounting material set (aluminum & stainless steel) * incl. MC4-connectors and PV-wire, German manufacturer, 15 years guarantee, <i>According to components list (Montagematerial Aufstellung)</i>	1
Delivery in Germany Incl. transport insurance	1

Turn-key system – price upon request – at your local installer!

** Mounting material: standard material, standard basis, tiled roof, panel layout vertically. According to components list (Montagematerial Aufstellung), deviating material upon request with price premium. Terms of payment: 100% advance payment. No cash discount. Two part payments allowed: 50% down payment at order, 50% rest payment required latest at provision of the panels in shipment warehouse (before truck loading). 3 part deliveries: Mounting material and inverters first, panels at last. Delivery time: Approx. 1 - 3 weeks from order. Price incl. delivery in Germany (FOB Germany price), please add additional transport costs for delivery to another country. Upon request, the delivery date can also be agreed later (acc. project timing). Terms and Conditions of PHOTON SOLAR Energy GmbH apply.*
